**FLAVIA®
Creation 200/400™:**

More than 15 hot drinks in 4 categories.
For you, your employees and your customers. In your office, your store, your car dealership, at the beauty salon:
Your FLAVIA® drink is the ideal companion for a successful working day.

The FLAVIA® Source.Seal.Serve™ process.

- The 3-step process starts with:
- 1) Sourcing quality ingredients world wide
 - 2) Sealing the fine ingredients so that freshness and aroma are maintained
 - 3) It ends with the Serving step: direct and fresh cup by cup.

The secret of the FLAVIA® freshpack revealed:

Aromatic:
brew by pack sealed freshpacks.

Fresh:
Brews directly and fresh into the cup.

Delicious:
The fresh and aromatic FLAVIA® drink

FLAVIA® Creation 200™

FLAVIA® Creation 400™

Every drink is brewed in the aroma sealed freshpack directly into the cup. Therefore the whole brewing process happens within a closed system and drinks are not in touch with the brewer. A very simple, clean and hygienic drinks preparation which minimizes the cleaning and maintenance effort.

Enjoy the fresh variety.
